Introduction

Courses

Construction Supervisor

ADIS

Electrician

D.M.L.T.

Introduction

It takes time for students to get vocational education along with college education to be successful in life.

This is the image of India as a country of youth. It is necessary to increase India's gross national productivity by adding vocational education & Skill development to this young manpower. To do this, it is aimed to develop technical and vocational skills in 50 crore youth by end 2022 and train them. The Prime Minister has given the slogan of 'Make in India'. This will require trained technical and skilled manpower, so young people need to turn to vocational education where more employment opportunities are available.

Today competition is increasing in all fields. Therefore, it has become difficult for students to achieve success by taking traditional education. For this through vocational education & Skill development it takes time to stand on your own feet in a short period of time. Therefore, Maharashtra Vocational Training Center is conducting courses suitable for employment in government, private sector, company as well as for running one's own business.

The capital of Marathwada in the city of Aurangabad, the students who come with different dreams are ready to hard work. But to be a hard worker, you need to choose the right course and the right guidance. The institute is committed to fulfill the dreams of the students and Maharashtra Vocational Training Center is always with us to help the students to stand on their own feet by imparting employment oriented vocational education & skill development courses.
